DESIGN PROCEDURES**

DESIGN PROCEDURE

The following is a list of the procedural steps necessary to be completed for Facade Loan Funds. If it is necessary for your project to deviate from these procedures, the Design Committee or the Executive Director of the Downtown Development Authority must be notified at (810) 664-4553.

1. Call the Downtown Development Authority to inquire about your possible project. At the initial call, the Downtown Development Authority office will be able to advise you as to whether your property is within the Downtown Development District.
2. The potential applicant should then receive a copy of the design guidelines along with the cover letter indicating that the guidelines should be passed onto the applicant's architect if he has one.
3. If the applicant does not have an architect of his own, and wishes to take advantage of the Downtown Development Authority's free design assistance program, the Downtown Development Authority office can recommend a participating architect. Free architectural design services are available up to \$2,500.00. In the instance when the applicant does not pursue an approved design, a fee of \$500.00 will be due to the Facade Loan Program.
4. The applicant, his architect, the Executive Director of the Downtown Development Authority and the Design Committee meet to discuss preliminary design considerations. At this time, questions regarding procedure can be clarified and the design guidelines are reviewed.
5. The drawing and written recommendations of the architect for a rehabilitation or new construction project are submitted to the Executive Director of the Downtown Development Authority. At this time, the project can be evaluated for adherence to the guidelines.
6. The Executive Director of the Downtown Development Authority will then send a letter with a recommendation to the Design Committee. At this time, the Executive Director of the Downtown Development Authority (1) will recommend that the Design Committee approve the design project, (2) will recommend that the design be submitted to another architectural firm for review, or (3) will recommend that the applicant and architect reconsider their choice of design as it is not in conformance with the guidelines.
7. The Downtown Development Authority Design Committee will formally review the project design that has been recommended for approval and will make a recommendation to the Lapeer Main Street Board for their action.

8. Additional meetings of the Design Committee may be scheduled at the request of the Chairman of the Design Committee, the Downtown Development Authority Executive Director, or at the request of the applicant or architect. The Downtown Development Authority Design Committee shall meet as necessary to review design work in progress or to consider design issues that may arise.
9. Upon approval of the Design Committee of the architectural plans and the project cost estimates, the applicant should contact the Lapeer Development Corporation at (810) 667-0080 to request an application packet for Facade Loan funds.
10. The Downtown Development Authority will issue its letter of recommendation on the project to be attached to the applicant's facade loan fund application.

DOWNTOWN DEVELOPMENT AUTHORITY
FACADE LOAN PROGRAM DESIGN GUIDELINES
FOR NEW CONSTRUCTION**

RECOMMENDED

Maintain compatibility with district through proper scale, color, design patterns, roofing, windows and other elements distinctive to the district.

Infill buildings (new buildings between or adjacent to existing buildings) should be placed in a plane parallel to and with the same setback as the adjacent building(s).

Use sand mold or semi-smooth faced brick of red, pink, cream or light brown color. Use appropriately colored mortar (red or gray). Corbeled brick, soldier coursing and other brick patterns similar to original structure patterns should be encouraged.

Window patterns and styles should be compatible with historic buildings. Repetitive patterns on the second stories are encouraged. Street level display windows should be compatible with historic buildings.

Windows should be of wooden construction or of aluminum with a black or dark bronze finish. Wooden windows can be painted in with an overall color scheme.

Building facades should terminate at the upper level with a parapet wall of masonry which can be straight or could have corbeled brick or brick patterns.

Standing seam metal roofing on sloped roofs can be encouraged if proper colors are used.

Signs should be simple, flat against buildings, of good design compatible with historic buildings.

NOT RECOMMENDED

Attempts to duplicate exactly period architecture in new construction.

Single story buildings should be discouraged when located between multi-story buildings or where the low scale will detract from the district's cohesive appearance.

Do not set new buildings back from the face of adjacent building faces or from the setback line of other buildings on the street.

Use of materials incompatible with the original architecture such as aluminum or other metal siding, plaster, vertical or diagonal wood siding, polished marble, aggregate faced panels, porcelain enamel panels and other such contemporary materials.

Use of contemporary colored brick such as white, green or other colors not compatible with the historic character. Avoid treebark and other heavy texture brick.

Natural (silver colored) aluminum is not recommended.

Mansard roofs or canopies at the secondary cornice (street level display windows) or at rooflines are not compatible with historic architecture.

Do not try to duplicate original historic cornice work at the upper termination of a masonry wall on a new building.

Do not use wide vertical metal fascia or other similar fascia to terminate.

Back-lit plastic signs, projecting two sided signs and oversized signs.

DOWNTOWN DEVELOPMENT AUTHORITY
FACADE LOAN PROGRAM DESIGN GUIDELINES
FOR REHABILITATION OF EXISTING BUILDINGS**

RECOMMENDED

Windows may be replaced with similar windows of wood (preferred) or of aluminum with a black or dark bronze finish. Windows should be of the same height.

Preferred treatment of windows would be the retention of checkrail patterns (4 over 4 windows, etc.).

Cloth awnings of appropriate design are encouraged for display windows and for upper story windows.

Reconstruct window brows where missing.

Reconstruct cornices where missing.

Remove mansard roofs and other non-conforming design elements.

Removing existing non-conforming materials such as wood or metal siding, aggregate faced panels, porcelain enamel panels, etc.

Remove non-conforming signs, large plastic letters, back-lit plastic signs, etc.

NOT RECOMMENDED

Reduce the size of upper windows or display windows.

Natural (silver) aluminum replacement windows.

Metal or fiberglass awnings.

Covering over original architecture with wood siding, metal, aggregate faced panels, plaster, porcelain enamel or other contemporary siding.

Removal of cornices, window brows, other original detailing.

The use of back-lit plastic signs, two sided signs, plastic letters or large signs.
